

Job Description: SAP Transactional Specialist

Temporary position as per contract, when required

Background:

The need arose for a team of SAP transactional specialists to assist with SAP implementation or challenges, due to capacity limitation of staff compliment, unforeseen volume of transactions or any other reason whatsoever.

Candidates will be required to transact possible large volumes of transactions on SAP with *impeccable* accuracy, and be available at reasonable short notice.

A non-disclosure agreement will need to be signed, and candidates will be subject to all standard vetting processes as per any other permanent employment.

The position will vary in contract periods as the candidate might be required from as little as one day to 3 weeks, or in some extreme cases, longer contracts can be considered.

Extensive after hour work might be required.

Own transport is essential.

Skills required:

Extensive SAP transactional and reporting skills

Proven high volume transactional skills and 100% accuracy in transactions processed, orders and quotations, corrections ie credits and re-invoices.

Knowledge of transactional impact on SAP stock related systems

Superior Problem solving skills

Extensive financial acumen, ie discount calculations ,corrections in terms of pricing etc

Experience in pharmaceutical or medical industry advantageous
